MD ASRAFUL ISLAM

Full-Stack Web Developer | Mobile & ML/DL (Secondary)

Bangladesh asraful808088@gmail.com 01626676752 GitHub: asraful808088 LinkedIn

PROFILE

Dedicated Full-Stack Web Developer, self-taught and highly motivated, with a strong foundation across modern frontend and backend technologies. Builds fast, adapts quickly, and ships working products. Carries additional working skills in Mobile Development and Machine Learning / Deep Learning as secondary strengths, offering flexible support beyond core web work when a project needs it. Actively seeking a full-time role, internship, or freelance opportunity to apply this dedication immediately.

CORE SKILLS

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), Tailwind CSS, Bootstrap

Frontend Frameworks: React.js, Next.js, Angular, Vue.js, Nuxt.js, Redux

Backend: Node.js (Express, Raw Node), Django, FastAPI, Gin (Go) — Intermediate: .NET, Nest.js, Laravel

Languages: JavaScript, TypeScript, Python, Go, Dart, Java, C#, C++, PHP

Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

Cloud & Services: Firebase, Cloudinary, Neon, Upstash, Vercel, Render

Mobile (Secondary): Flutter (Provider, BLoC, Rx-Dart), Java (Android)

ML / DL (Secondary): Scikit-learn, TensorFlow, Pandas, NumPy

Real-Time: WebSocket / Socket.IO, WebRTC, Puppeteer

Tools: Git & GitHub, VS Code, Figma, Adobe XD, Postman, PM2, Docker, Linux

AI Platforms & APIs: Claude, ChatGPT, DeepSeek, Google AI Studio, Gemini API, OpenRouter, Groq, Hugging Face, Ollama

FEATURED PROJECTS

NexTrade — Trading Web Application Visit Site →

- Angular frontend with an Express.js backend, styled in SCSS, using Firebase for backend services and authentication. Deployed on Vercel.

Chain Hook Wallet — Web Application Visit Site →

- React.js frontend with a Django backend, styled with Tailwind CSS, backed by PostgreSQL. A money transfer and holding platform that uses a secure OAuth flow to provide a trusted payment service, connected as the payment layer behind Bigbiz's buy flow. Deployed on Vercel.

Bigbiz — Social Commerce Platform Visit Site →

- A social commerce web app where sellers and buyers can post listings much like an e-commerce marketplace, with a built-in buy option that connects through to Chain Hook Wallet for secure payment processing. Next.js frontend (Tailwind CSS) with a Go backend, PostgreSQL (Neon) and Redis (Upstash) for data and caching, and Cloudinary for media. Next.js deployed on Vercel, Go server deployed on Render.

EDUCATION

Honours (Bachelor's Degree) 2020 – 2021

Final year examinations recently completed

Higher Secondary Certificate (HSC) 2020

Secondary School Certificate (SSC) 2018

CURRENTLY DEEPENING

- **React & Next.js:** Advanced patterns, SSR/SSG, App Router — building production-grade UIs.
- **Flutter & Mobile:** BLoC pattern, Rx-Dart, cross-platform apps.
- **AI & Machine Learning:** TensorFlow, Scikit-learn, applied model integration into web apps.
- **Real-Time Systems:** Socket.IO, WebRTC for live, collaborative, and streaming features.

WHAT I BRING

- Strong, dependable focus on full-stack web development as a core specialty.
- Fast adaptation to new tools — ships working solutions under time pressure.
- Flexible support in mobile and ML/DL when projects call for it.
- Wide, practical range — from pixel-level frontend detail to backend and deployment.

AVAILABILITY

Open to full-time roles, internships, freelance, and remote work. Available to start immediately.
